

## Jill's Growth Formula

Suddenly she heard the voice of her neighbor Paul outside her window, "No officer I didn't see the owner of the house, just a strange woman jump out the window and run to her car and take off" ----- "I'm gonna take a look inside while I'm waiting". Paul climbed into the window, slipped, and slid in-between Jill's massive legs colliding head first into her damp cunt. A tiny man falling right into her pussy was simply too much for the 30 foot tall Jill's self restraint (it also didn't help that the first thing Paul grabbed to try and right himself happened to be Jill's clit).

"Fuck it, I can't take it any longer!", screamed Jill as she reached down and began to pleasure herself with the little man. Paul didn't have a clue where he was or what was happening to him, he just struggled against whatever had a hold of him. Unfortunately his struggles only increased Jill's feeling of pleasure as once again she started to grow.

"Yes, oh God I can feel it. I can feel myself growing" Her breast that was wedged in the doorway began to crack the frame as she continued to expand. The other breast was slowly moving towards the ceiling. The stiff nipple began to push into the ceiling gouging a hole causing the plaster to crumble around her breast and stimulate her to new heights. She could feel her body pushing against all the walls and could hear them creak as they began to loose the struggle against her expanding form. She was now shoving Paul's entire body in and out of her glistening cunt and screaming, "Bigger- - OH YES - - -I'm Groooowing BIGGER!" Her legs broke down a wall and pushed into another room. Her Breasts pushed the floor above her up as her ass broke through the ground floor into the basement. Jill sat up and watched as her head approached the roof waiting for the moment when the flimsy walls of her house could no longer contain her swelling form. She rubbed herself faster.

As the police pulled up they could hear Jill's loud cry's of pleasure as well as the sound of her house being torn apart from the inside out.

"UH- - -READY OR NOT- - -OH- - - HERE I COME," she screamed. Jill had began to burst out of her house. As they stepped out their car Jill's legs broke down one side of the house and spilled out. Next her head, with a look of extreme pleasure, broke through the roof followed soon by her shoulders. The intact portion of the roof in front of her began to

bulge as her breasts began to come up. In moments two large expanding breasts broke free of the roof and continued their climb upward. The officers could see her arms were still inside what remained of the house busy doing something that seemed to be causing the look of ecstasy on her face. Suddenly she began to twitch and scream even louder.

"I'm cumming- - - Oh Yes, I'm cumming- - - I'm growing- - - It feels sooo good" With that her growth suddenly sped up growing 5 to 10 feet with every spasm. "OH- -I'M GETTING- - -BIGGER- - -AND- -UH-UH- -BIGGER AND B-I-G-G-E-R!", she stuttered between spasms and growth spurts. Her body continued to spread flattening her house and knocking over a portion of her neighbors homes as she writhed and moaned. As she neared 60ft her growth began to slow to short quivering pulses and finally ended with a shuddering sigh at 90ft.

"Oh, that felt good, but its not enough," she exclaimed, "I want to be bigger." With that she dropped Paul, stood up, and headed off towards the city.

By this point Susan had contacted Steve, explained Jill's situation, and was waiting for him at Jill's Lab. As she waited Susan wondered how Jill was doing and if she'd given into her urges and grown larger. Again she felt that strange feeling in herself and she wondered what it must feel like to be so large. She glanced around the lab and noticed a stoppered beaker full of a light blue fluid. She walked over and picked it up looking at it in the light. Without knowing why she suddenly pulled the stopper out of the tube and gulped down the contents. Panic hit her a minute later when she realized what she might have done to herself. Suddenly the doors to the lab burst open and Steve walked through. He immediately began to look over Jill's notes attempting to figure out a way to solve Jill's problem. Susan however was beginning to develop a problem of her own as thoughts of growth began to go through her head and her panties began to grow wet and started to slip into the folds of her slowly swelling pussy. Steve was so busy reading Jill's work that he didn't even hear creaking noise of Susan's bra being stretched by her slowly swelling breasts or the ripping noises as tears began to appear in her hose when they could accommodate her swelling legs no longer. The fact that Steve didn't seem to notice her growth happening right behind him only excited Susan further as her skirt slowly slid further up her legs and stretched gaps began to show between the buttons on her tightening shirt. Unable to restrain herself any longer she reached up and ran her hands over

her stiff growing nipples pushing though her blouse.

"Mmmmmmmmm," she moaned.

"What", said Steven not looking up.

By this point her skirt had slid up high enough to expose her dripping womanhood, which she reached down and began to caress causing her to take in a deep breath. Finally Steve was brought out of his intense studying of Jill's notes by the buttons bursting off Susan's shirt which hit him directly in the back of his head. He turned around and was confronted by the sight of Susan bursting out of her clothes right in front of him.

"Steve, I- - UH- -think I need your- - OH, -(her bra burst off her growing chest and landed right on Steve's head)- Mmmm- help", she gasped. She grabbed Steve by his head and pulled him face first into her expanding cunt. "Lick me", she yelled and he tried to pull out of her grip but she only held him tighter. "Steve, you've got to help me. Please", she moaned. With no other choice Steve began to lick and suck Susan's clit causing her knees to buckle and fall to the floor.

"Oh God," she screamed while rubbing her free hand over her swollen tits, "don't stop- -please- - UH- -don't stop- - the growth feels so fucking good and I can feel you getting smaller and smaller." By this point the remaining rags of her clothing shredded off her and her head hit the ceiling. Steve could feel Susan's wet, growing cunt lips engulfing more and more of his head as he had no choice but to continue to pleasure her, causing her to growth to only speed up. Susan watched as her body filled the long room, pushing equipment up against the walls and finally smashing it as she began to press out against her confines. She looked down at the tiny man whose body she was slowly pushing further and further into her growing cunt. She pushed out with her free hand and burst through the roof of the campus lab. Causing a general panic by all those walking near the lab. Susan stood and looked down at her nearly 50ft tall body. She realized that she wanted more and Steven was just not going to do. She turned and headed towards the nearest frat house.

By this point Jill had reached the city and was causing quite a stir as she moved naked through the streets toward down town. Just being so huge turned her on enough to cause her body to swell even larger. As she got

close to downtown she realized that the buildings were getting taller than her.

"This won't do, "she said as she sat down and herded a mass of people towards her wet cunt.

"I want you all to climb my cunt and rub my clit, and I won't take no for an answer," With that she watched in fascination as the tiny people began to make their way up her lips and towards her clit.

"Oh!", she began to moan as the little people tickled her lips causing her to get wet and stir a now familiar feeling in her body. She gasped as the first one reached her clit and restrained from rubbing herself as that would rob her of the pleasure of letting them do the work. Instead she concentrated on the tickling sensation she felt on her clit which began to become more and more pleasurable as more people climbed on it messaging it with their hands.

"Yes, that's right," she exclaimed as she began to feel her ass and feet move across the cement as her body began to swell, speeding up as she became more excited. She reached out and grabbed a handful of people and scattered them on her nipples, watching as they responded to the feet running across them by growing hard causing even more growth to occur. She began to writhe from side to side as she got closer to peaking. She was soon wedged between the buildings on either side of her but she didn't mind as the feeling of her surroundings pressing in turned her on even more.

"Oh, yes bigger, Bigger" she screamed as she began to cum. The people on her suddenly became aware of her sudden burst of growth and watched as her nipples and clit expanded under them causing them to panic and scurry frantically over her sensitive parts causing only more pleasure for her.

"I can't resist any longer," she said as she reached down and buried her fingers deep into pussy, "It.... feels.... so..... GOOD!" she screamed as her growth exploded and her expanding form began destroying the buildings around her.

Suddenly her growth stopped and she panted heavily for a moment before opening her eyes and standing up.

"Yes, I think I'm about the right size now for what I had in mind." she

said as she headed further downtown with a smile on her face.

Susan stopped in front of the largest frat house on campus. She leaned over and smiled as she noticed one of the house's occupants, who had obviously been unable to make it to his room the night before, passed out on the lawn. She gave the man a gentle nudge. He didn't move. She gently picked him up amazed by the fact she could now fit a man in the palm of her hand.

"Rise and shine," she said holding him right up next to her mouth. He jumped up and fell right back down at the sight that confronted him. He began to rub his eyes attempting to wake up from the dream he thought he was having. Susan smiled at the confused look on his face.

"Hi there," she said. "I was wondering if you and some of your friends in the house could help me with a little problem?" She moved her hand down so the little man would have to look up over her breasts to see her face. "I'm feeling a little worked up and for some reason one man just won't seem to do for me today." The man gulped. "I thought that maybe you and some of your brothers come out and lend a hand so to speak." She emphasized what she said by running her hand down her massive tit and rubbing the nipple causing it grow hard and her to moan. She forced herself to stop as she knew what would happen if she continued. Not that she didn't want to grow larger but that she wanted tiny men like the one she held in her hand to be what triggered the growth. Not knowing what else to do and still not completely sure he wasn't asleep the little man nodded. "Good," Susan said, "go rally the troops and don't take too long or I might have to come in and start a draft." She put the man down and he ran into the house falling twice on the way there. A few moments later windows began opening up and multiple heads began sticking out. "Come on out and play boys", Susan said running her hands over her body. The heads disappeared and a minute later the front door opened as the house's occupants came streaming out. She sat down in front of them and spread her legs to give them a good view of the glistening cunt that awaited them. "This won't do, she said, "you all have your clothes on while I'm not wearing a stitch. I'm afraid the clothes will simply have to go." They all promptly obeyed and soon stood naked in front of her. She eyed their young bodies and felt her excitement build and the tingling sensation return to her body.

"Well, what are you waiting for," she said sliding one hand down to

her now dripping lips and inserting it for a moment before bringing it slowly out, "can't you see that I'm not interested in foreplay." The little men began scrambling towards her some climbing up into her cunt others climbing onto her hands to be deposited on her breasts. Susan then leaned back and watched as the little men rubbed her clit, nipples, and scampered all over her body causing waves of pleasure to wash over her as she began to feel her body expanding slowly over the ground under her. "That's it," she said, "Oh God you all feel so good." She watched as the men squeezing her nipples began to get less and less of their arms around them as they slowly swelled. The men didn't even seem to notice her growth or didn't care, as she got larger more of them simply moved up to add to the ones rubbing her sensitive spots causing even further growth. "Yes---Mmmm--Oh my God YES!" she began screaming as her growth sped up. "Don't fucking stop!" she screamed as she verged on the brink of a massive orgasm.

Susan's actions had hardly gone unnoticed by the other people on campus. A large throng of people had gathered around her gigantic form as she twitched and moaned in pleasure. "I'm --- Oh---Cummmmm!" she suddenly screamed and her body began to swell at an alarming rate. Her legs had slid around either side of the frat house but soon her growing frame pushed her cunt against it. The sudden pressure against her cunt caused her to bring hand behind it and grind her pussy lips and clit against it prolonging her orgasm. The people behind the house watched as her two legs spread further and further out. Suddenly a hand came over the top of the building held the back as the giantess rubbed her cunt against it. They watched as it got slowly smaller in her hand and saw the enormous wet clit rising quickly over its roof. Just as her lips were about to swallow it whole her body shuddered one last time and she let out a long slow sigh. Susan looked down at the frat house which didn't even reach the top of her cunt and smiled.

"Sorry about your house boys," she said and blew them a kiss. She suddenly remembered Jill and wondered how she was doing. Smiling to her self she set off in search of Jill. As she left a radio one of the students was holding interrupted its regular broadcast to say that a giant naked woman had taken an interest in a certain tower downtown.

Jill strolled up to the round tower which housed the offices of her former employers and smiled. They had fired her because she had failed to produce results on her growth formula. She tapped on the side of the building to get their attention, not that she needed to everyone in the

building was already staring out the windows at the gigantic naked woman. "You fired me because I couldn't produce the results you wanted," Jill said. "What do you think about these results?" "Are they big enough for you?", she said running her hands over her body. "Not big enough, well I can fix that." The president of the company watched his former employee began to stimulate herself and suddenly realized the meaning of her last statement as her already gigantic body began to swell once more. Jill's head quickly reached the height of the building and she was soon able to see the crowd of people who had gathered on the top of the building.

Sam who worked on the opposite side of the building from where Jill was putting on her show got a phone call from his William who was on the roof watching the giantess caressing her body. Sam emerged onto the rooftop just in time to see a gigantic pair of eyes slowly rising above the edge of the building's roof. "What the fuck", he thought. He watched as the giantess's head continued to rise as she got bigger and bigger. He could soon see her mouth gasping and twitching caused by something going on below her. The building suddenly rocked as she wrapped her arms around it and hiked one leg up in order to rub her dripping cunt against it. "Oh God," she moaned as her growth began to speed up. Soon shoulders appeared, followed quickly by the tops of her enormous tits, which were pressed into the building. Meanwhile the president sat in his office and watched the nipple on Jill's breast, which was now firmly pressed against his window expand. The people on the roof watched as her breasts suddenly seemed to halt their rise and thought she might be done growing. Jill let a load moan and they heard a crunching noise followed by cracks beginning to form in the roof. Jill couldn't believe how much stimulation she was getting from feeling her breasts growing inside the building. She could feel them pushing over walls and breaking through the floors as she continued to grow. She began to rub her pussy faster against the building wanting to reach the size she needed for what she truly had in mind for the building.

The people on the roof watched as the cracks split further and further apart exposing Jill's growing breasts slowly forcing their way through the roof. "Oh yes--- Here--it----Comes" Jill panted. She suddenly shuddered causing the whole building to shake. Her eyes rolled back in her head as her lips parted and she gave off a primal scream of pleasure heard all over the city. Her growth took off. Jill's breasts burst through the top of the building and continued to rise as her body shot heavenwards. She reached up with her hands and rubbed her nipples, "Bigger---Bigger!", she screamed. Jill's

crotch passed by the roof of the building and her growth didn't slow until the building was even with her knees.

She opened her eyes, astounded at the size her last growth spurt had brought her. Licking her lips she looked down at the building and got down on her knees with the building lined up directly under her pussy. The giant cunt lowered slowly onto the roof of the building. Jill sucked in a breath as she began to rub her clit and slid her cunt around lubing it up for what she was about to do. She began to grow again and her legs began to push into the building around her as she started to lower herself onto her makeshift dildo. She could feel it going deeper and deeper into her pussy as her body continued to expand once more. Jill watched in with fascination while the city around her grew smaller and smaller. Soon she could see over the rooftops of the tallest buildings in the city from her kneeling position. She grabbed the base of her building/dildo and broke it off so she could spread out and watch herself grow. Jill lay back knocking several buildings over in the process and continued to push the building in and out of her cunt. She watched as her legs slid further and further down the street until they filled up all the empty space left and began to be squeezed by the buildings. The feeling of something attempting to resist her growth only turned her on more and she sat up to watch the buildings slowly loose the battle to contain her expanding lower half. It was too much she came again growing at an extremely fast rate. Jill's body very quickly flattened several city blocks before the growth spurt ran its coarse. She scanned the city from her new perspective. She was now able to look down on most of the city from her new height, and this was while she was sitting down. She suddenly noticed another giant woman just now entering the edge of downtown. While she was nowhere near Jill's size she could see the woman would stop every now and then to pick something up and rub it in between her legs or on her chest. Each time this would happen Jill could see the smaller giantess swell and as she got closer and bigger Jill suddenly realized who it was.

Susan left the campus and headed downtown where she figured she might have the most fun at her new size. Like every one else in the city she heard the load moans of Jill's pleasure coming from somewhere downtown. She headed into the city intending to find out what her friend was up to stopping every so often to pick up an object or a person to pleasure her self on the way. Suddenly Jill's moans began to increase in volume and Susan watched in fascination as she saw Jill's form slowly began to rise above the skyline in front of her. She was enormous and Susan doubted if she'd even

come up to her thigh. Suddenly she was even more turned on than before and picked up her pace as she headed towards her friend. She smiled as she couldn't wait to grow that big.

Jill watched Susan break into a sprint causing havoc among the streets as people were fleeing from Jill's last growth spurt.

"My God, Jill, you're huge," Susan said when she finally reached her.

"I know and it looks like you're not so tiny yourself," Jill retorted.

"I just couldn't help myself." Susan exclaimed "I was waiting in your lab for Steve to show up and started looking around. When I came across the formula I didn't even really think about it, I just gulped it down. When he showed up I started to get turned on and haven't really calmed down since and by the looks of it you haven't either."

Jill blushed "It just feels so good all I want to do is grow bigger and bigger. I don't ever want to stop. But (She reached down and easily picked up Susan) I think you could use a little help catching up with me so we can have some fun on the same level." With that she brought Susan up to her mouth and began to rub her tongue in between her legs causing Susan to moan and writhe in ecstasy. It also caused immediate spurt of growth.

Susan couldn't believe how good it felt for Jill to lick her pussy with her giant tongue. She began to rub and pull on her nipples excitedly as her growth began to speed up. "GOD YES!," she screamed as her body exploded with growth. She soon wrapped her legs around Jill's tongue riding it as it got smaller. Jill laid her down on the street as she continued to eat her out. She felt her head bump into a building behind her and then felt the structure slowly give way to her expanding form only for her head to meet another obstacle which would also soon fall. She watched as the city got smaller and smaller. Soon Jill wasn't so overwhelmingly big anymore.

Soon Jill noticed she could insert a finger into Susan's wet cunt. She continued to flick her tongue over her clit and watched as she soon found she could put more and more fingers into Susan's cunt. Finally Susan gave off one giant scream and her body spread out so fast she knocked over buildings in all directions. They were now both about the same size and sat up smiling at each other.

"How do you feel now?" she asked Susan.

"Just the right size to do this." Susan responded. She jumped on her friend and pinned her to the ground kissing her on the lips for a moment and then running her tongue down to her friend's swollen nipple.

"MMMMmmmmmm, I've got an idea," Jill said. She leaned forward and whispered into Susan's ear causing her to smile a mischievous grin.

"Sounds alright to me," Susan said and flipped her body around so her cunt was now above Jill's mouth and Jill's dripping pussy was within easy reach of hers. They brought their heads towards each other's cunts and began to feverishly lick each other. Their bodies responded immediately growing at a faster and faster rate. Feeling their bodies crush all they came in contact with they watched out of the corners of their eyes as their expanding forms began to plow the town into the ground. Both the women moaned loudly as the pace of their growth continued to quicken, neither of them wanting it to stop and both planning to make sure it didn't.
